## **Youth Excited About Sports Basketball Protocol for Covid-19**

**We understand there is an inherent risk when participating in sports that are held in indoor facilities. We will have limited teams this year so it is important to follow the Covid-19 guidelines for the safety of yourself, your team, and those around you.**

### ***Guidelines based on Johnson County public health orders***

1. Players and all other attendees will socially distance and players will wear a mask when possible while attendees MUST wear a mask while in the YES facility.
2. Participants, coaches & parents must not have any symptoms of cold, from mild cough, runny nose, fever, or any loss of taste or smell. If symptoms exist or someone in the home has had symptoms or a fever in the past 2 weeks, player should not attend practice or games. Coaches should ask players about symptoms and how they are feeling at the start of each practice and game. Also, we would like to ask parents to make sure they check their child's temperature prior to any event each and every time to help us stop the spread of the coronavirus.
3. Coaches and parents must supply hand sanitizers to their players and participants for games and practices.
4. Limit physical contact at all times including during huddles. At the end of the game we will wave at the other team to acknowledge good sportsmanship.
5. Referees will communicate with 1 coach from each team to reiterate rules pre-game.
6. Practice social distancing as much as possible while in the team bench area.
7. Team benches will be on opposing sides of the half court line to limit interaction. Each player will have their own chair and players who are in action will face their chair the opposite direction and when they are not in action they may turn their chair around.
8. Parents/spectators should practice social distancing, leaving at least 6 feet between anyone not in your immediate family or group.
9. No sharing of water bottles, sports drinks, or any other beverages.
10. Participants must keep personal belongings such as bags under their designated chair during the current event.
11. Game ball will be supplied by Y.E.S. Facility. Referees will bring the ball to the court and sanitize prior to game.
12. Teams must leave the court/facility immediately after their game/s to allow for sanitization before the next team arrives. Take EVERYTHING from the bench area. Do not leave any items or trash behind.

13. Game times will be staggered to limit interaction and allow teams to clear the courts and leave before the next teams arrive. Teams should take the court 10 minutes prior to game time. Please do not hang out earlier or linger before/after games.

14. Notify Y.E.S. immediately if any player or family member in the home develops symptoms or a fever at any time, learns they have been exposed to someone who has COVID, or tests positive for COVID. Based on the circumstances the exposed player and potentially the team may be suspended from play.
